

FROM

C. L. CORFIELD, ESQUIRE, M.C., I.C.S.,

Secretary to the Hon'ble the Agent to the

Governor-General, Rajputana.

TO

THE PRINCIPAL,

MAYO COLLEGE, AJMER.

Dated Mount Abu, the 4th October, 1930.

SIR,

I am directed to acknowledge, with thanks, the Annual Report on the working of the Mayo College for the year ending the 30th April 1930, forwarded with your letter No. 2072/11, dated the 17th September, 1930.

2. The Hon'ble the Agent to the Governor-General regrets that it has not yet been found possible to strengthen the English staff and thus to obviate the adverse criticisms which appear in the annual Inspection reports on the teaching of English at the College. The paucity of the English staff is mainly responsible for the failure of the College to achieve a higher reputation for scholastic attainments and it is most unfortunate that the cause which make it impossible to remove this handicap still exist. Notwithstanding this defect, the general results are satisfactory. The Hon'ble the Agent to the Governor-General notes with pleasure the Principal's appreciation of the time and energy devoted by Mr. Ritchie and Colonel Howson to the supervision and development of the athletic side of the College life.

3. I am to enclose herewith a short note suggesting certain minor verbal alterations in the Report

I have the honour to be,

Sir,

Your most obedient servant,

(Sd.) C. L. CORFIELD,

Secretary to the Hon'ble the Agent to the

Governor-General, Rajputana.

FROM

S. F. MADDEN, ESQR., C.I.E., O.B.E.,

Inspection

The College was inspected on 2nd and 3rd April, 1930, by the Educational Commissioner with the Government of India. The report is printed as Annexure O. The remarks of the Inspector on English emphasize the difficulty which the College is now experiencing from the shortage of English Masters. Other comments made by the Inspector on other subjects have been noted, and, as far as possible, action is being taken accordingly.

For Athletic Sports boys were this year graded in Divisions A, B and C according to their general proficiency in athletics—not in the usual divisions, 1, 2, 3 and 4 by ages.

Athletic Sports.

There was thus closer competition, and it was an advantage to retain the same divisions for sports as for other games in the inter-house competitions.

There was a large number of entries and although no new records were set up, competition was keen, especially in Division C.

Special prizes were awarded to the champions of the three divisions.

The distribution of boys by Houses at the end of the year was as follows:—

The prizes for the House Gardens were adjudged by Mrs. Reynolds, Mr. E. C. Gibson, I.O.S., and Mr. W. S. Fraser, O.B.E., who awarded Her Excellency Lady Willingdon's Cup for the best House Garden to the Jodhpur House.

House Gardens.

At the Ajmer Flower Show the College gardens secured 46 prizes.

The Monitors were 5 in number. They were:—

Monitors.

Kanwar Raghuvendra Singh of Bharatpur.

Sardar Sarji Rao Sitole of Gwalior.

Apji Raghuraj Singh of Koela.

Apji Randhir Singh of Koela.

Kanwar Vinai Singh of Mohanpur.

A Gypsy moth machine belonging to the Delhi Flying Club, landed on the Mayo College Polo Ground, on the 20th October 1929. The aviators started on the return journey to Delhi at 2 p.m. His Highness the Maharao of Kotah was amongst those who saw them off.

NOTEWORTHY EVENTS.

An Air Demonstration was arranged by the Delhi Flying Club, on the suggestion of Sir Victor Sassoon, with the definite object of developing air-mindedness in the boys. The plane landed on the College Polo Ground on the 12th December 1929 at 11-10 A.M. and left for Delhi at 1-30 P.M.

Two Moth aeroplanes belonging to the Bombay Flying Club, arrived on the College Polo Ground at about 4 P.M. on the 12th February 1930 and left for Delhi at about 11-30 A.M., on the 13th.

The Royal Commission on Indian Labour visited Ajmer, on 11th and 12th November. Their offices were accommodated in Colvin House and the Commission assembled in the Bikaner Cricket Pavilion to hear evidence.

The Post-Diploma and Diploma Classes attended the sitting of the Commission.

A party of English Public School boys visited the College on the 26th and 27th January 1930 and played a football match on the 27th, beating the College XI by 2-0.

College Jubilee.

It was decided with the approval of the members of the General Council that the College Jubilee should be celebrated in 1930. A small Working Committee was appointed. This Committee met once, and subsequently decisions were reached by correspondence. His Excellency the Viceroy graciously agreed that a date should be chosen to coincide with his visit to Ajmer.

The celebrations began on March 7th, the date on which His Excellency the Viceroy reached Ajmer. The first event was the Prize-Giving when His Excellency, who was accompanied by Her Excellency Lady Irwin, presided. A large and distinguished gathering of visitors which included sixteen Ruling Princes and Chiefs attended the Prize-Giving. His Excellency presented the annual prizes, received an Address from the Mayo College Old Boys' Association and afterwards addressed the assembly. After the Prize-Giving the Principal was At Home on the Cricket ground.

On the 8th afternoon the Old Boys' Association gave an informal Garden Party when Their Excellencies attended informally and played tennis with boys and Old Boys. A large number of guests attended.

On the evening of the 8th the Vice-President and Members of the General Council, entertained Their Excellencies at a banquet held in the College Hall. His Highness the Maharaja of Jodhpur proposed the health of Their Excellencies in a striking speech, and His Excellency replied in words which demonstrated his warm sympathy with the College.

On the nights of the 7th and 8th all the buildings in the park were brilliantly illuminated.

In the course of the Jubilee celebrations His Highness the Maharaja of Jammu and Kashmir, offered a scholarship of £300 a year for 3 years for study abroad. This scholarship which will be named after His Highness is to be awarded to a boy selected by the Principal from those who have passed the Diploma or Higher Diploma Examination.

The Jubilee, may, it is thought, be regarded as having been a success. It was attended by 181 Old Boys, including 16 Ruling Princes and Chiefs.

Old Boys Gathering.

The Old Boys' Gathering was held in connection with the Prize-Giving. Cricket, Polo and Tennis matches were played between Past and Present.

General Council.

No meeting of the General Council was held this year.

Managing Committee.

The meeting of the Managing Committee was held at the Mayo College on the 7th December 1929. The proceedings are printed in Annexure P.

The death of the following Old Boys occurred during the year:—

Obituary.

His Highness Rana Sir Ranjit Singh Bahadur, K.C.I.E., of Barwani, Central India.

Bhanwar Natwar Singh of Cutch.

Kanwar Akhairaj Singh of Gainta, Kotah.

13. The Staff worked with zeal and efficiency throughout the year. Preparations for the Jubilee celebrations, and the celebrations themselves resulted inevitably in some dislocation of School work, and added considerably to the labours of the Staff. These additional labours were willingly shouldered and enthusiastically performed.

The athletic side of the College was managed as before by Mr. Ritchie and Col. Howson, who spared no pains to rouse keenness for the games in their charge. A debt of gratitude is owed to them for their unselfish efforts.

I have the honour to be,

Sir,

Your most obedient servant,

S. F. MADDEN, C.I.E., O.B.E.,

Principal, Mayo College, Ajmer.

ANNEXURE O.

MAYO COLLEGE, AJMER.

1. **Dates of inspection.**—2nd and 3rd April 1930.

2. **Management.**—The control of the college is unchanged.

3. **Finance.**—The college prepared a balanced budget for the year 1929-30, but the revised estimates show a deficit of Rs. 4,160/- for that year due mainly to a decrease in income from rent of houses and to additional expenditure on renewal of electric fittings (unavoidable since the general supply has been changed from direct to alternating current) and on the College Jubilee Celebrations. For the year 1930-31 the college has drawn up a balance budget estimate showing a small surplus, the total income of the College Fund being Rs. 1,59,860/- and the total expenditure Rs. 1,57,960/-. The main estimated sources of income are interest on endowments Rs. 46,800/-, College fees Rs. 21,450/- and contributions from Government Rs. 53,420/-.

4. **Buildings.**—Buildings have been thoroughly cleaned since my last visit. Various improvements have been made in the Jaipur House, almirahs have been put in and a high standard of cleanliness and neatness is aimed at. Improvements have also been made in the tennis court and cricket practising net.

5. **Library.**—The library is very well equipped especially with books of reference; a selection of English story books suitable for junior classes has been recently obtained for it. The annual expenditure is about Rs. 400/- on books and Rs. 600/- on newspapers and magazines.

6. **Boarding arrangements.**—I was very glad to see that one house—the Jaipur House—has shown the lead in accepting one of the recommendations that I made last year, namely, in introducing a common mess for the Kumars. All the boys in the House—eleven in number—eat together and thus not only reduce the cost of living by sharing the cost of the smaller number of servants that are required but also approach more nearly to the English public School life.

Difficulties have, I understand, been experienced, among which may be mentioned the lack of provision of the capital cost of the equipment (kitchen things and table appointments) that is required for a mess, in organising and supervising the new arrangements and in not having fixed rates for mess subscriptions, but such difficulties as are experienced can, I am certain, be overcome given the necessary support from the State authorities, the tutors, the motamids and the servants, for the boys, I am told, like eating together.

7. **Organization and courses.**—This is the only one of the Chiefs' Colleges which offers instruction in the Higher or Post-Diploma course. This course is spread over three years and is taken by those who pass the Diploma examination and wish to continue in the college. Nine Kumars are reading in these classes, only one of whom is in his third year.

The Diploma course consists of compulsory subjects, alternative subjects and optional subjects. In the alternative subjects the majority of the pupils at Ajmer take Law and Administration, only a minority taking Advanced Mathematics; in the Diploma class only two out of twelve while in the second class only three out of ten are taking Advanced Mathematics. As regards optional subjects none are taking Drawing; all the Kumars take either Science or a language (Persian or Sanskrit). It is the intention of those who take Advanced Mathematics instead of Law and Administration to continue their studies; some intend to take a university course leading on to a degree while others propose to go to Sandhurst.

8. **Time Table.**—The Principal has recently changed the time table of college classes, except for the hot weather months, from an almost continuous session extending from 10 A.M., up till 2 o'clock to one much more suitable, in which the Kumars are

given instruction during both mornings and afternoons except on Wednesdays and Saturdays. The time table for lessons is now as follows:—

From 10 A.M., to 11-30 P.M. Break for ten minutes.
 From 11-40 A.M., to 1-10 P.M. Break for fifty minutes.
 From 2 P.M., to 3-30 P.M.

On Wednesdays and Saturdays:—

10 A.M., to 12 Break for ten minutes.
 12-10 P.M., to 1-30 P.M.

This change makes the time table much more suitable for the cold weather; even a short break in the middle of the day enables the Kumars to relax and refresh themselves and to return to their studies with renewed vigour. The work done at the end of a long session which has no break is usually of small value. In the hot weather the morning is the only time for really good work to be done.

9. Staff.—In addition to Mr. Madden who is Principal there are only two European members of the staff, namely, Mr. Ritchie and Col. Howson. I do not consider this staff sufficient for a college of this size which teaches Post-Diploma classes in addition to the ordinary Pre-Diploma classes. Col. Twiss who used to give additional assistance in the general work of the college has left for England with the Maharajah of Jaipur who is now at Woolwich. There are thirteen Indian masters excluding religious instructor, Superintendent of Games, Riding Master and Drill Master. The Principal discussed with me the question of recruitment of Indian staff. The starting pay offered at the Mayo College, Ajmer, is much less than that offered at the Daly College, Indore. He finds that a master with the really essential qualifications needed namely, character, personality, power of control, ability to play games and the like is much more difficult to find than is a master with purely academic qualifications. I was able, I am glad to say, to give him some little advice on the general lines on which he might seek to recruit with a view to securing as masters men who are not only intellectually and professionally qualified but who are also men of character with power to control and are keen on games and athletics.

10. Pupils.—There are 97 Kumars on the rolls, 88 in the Diploma classes and 9 in the Higher Diploma classes, as against last year's total of 101. It is a pity that the lowest classes contain very few Kumars, for they would benefit appreciably by an education that begins before an average of 13 or 14. The actual distribution (with ages) is as follows:—

Class.		Number.	Ages.	Extreme ages.	Average age.
Post-Diploma—					
3rd year	1	22	22	22
2nd year	5	17, 17, 19, 22, 24	17-24	19·8
1st year	3	16, 18, 22	16-22	18·66
Diploma	12	16, 17, 17, 18, 18, 18, 18, 19, 19, 21, 21, 21	16-21	18·58
II	10	16, 16, 16, 16, 18, 18, 19, 19, 20, 24... ..	16-24	18·2
III	20	13, 14, 16, 17, 17, 17, 17, 17, 17, 17, 17, 18, 19, 19, 19, 21, 21, 22	13-22	17·6
IV	21	10, 11, 13, 13, 13, 13, 14, 14, 14, 14, 15, 15, 15, 15, 16, 16, 16, 17, 17, 17, 18	10-18	14·56
V	7	11, 12, 13, 14, 15, 15, 15	11-15	13·55
VI	10	12, 12, 13, 13, 13, 14, 14, 14, 15, 15... ..	12-15	13·5
VII	4	11, 12, 13, 14	11-14	12·5
VIII	4	8, 8, 9, 11	8-11	9
Total	97			

11. **English.**—There is a very striking difference between the comprehension of the Kumars of English and their powers to express themselves accurately in this language. The former is quite good but the latter might be improved by insisting upon much oral conversation in class especially in the lower classes. Many of the senior Kumars have acquired a distinct taste for English literature. Several Kumars in the Diploma class speak and read too quickly and since they lack constant conversational practice in English with Englishmen they stumble over words or become semi-articulate; at times they even read automatically without concentrating or understanding the words they read. It is essential that they should first learn to speak slowly and to enunciate correctly. Speed will come with practice but it is not good to allow the Kumars to speak quickly when their speed is coupled with inaccuracy or with slovenliness in language.

12. **Vernaculars.**—The following table give the distribution of the Kumars according to the vernaculars spoken by them in their homes and those which they are taught in the College. It is observed that the large majority are taught the language of their homes is in the main Hindi.

13. **History.**—The teacher of English History finds it somewhat difficult to select books that exactly cover the syllabus prescribed for the Diploma course and which are suitable (not too hard and not too easy) for placing in the hands of the pupils. Excellent books for the higher (Senior Diploma) classes but very few books suitable to place in the hands of the lower classes and exactly covering the syllabus are available. The teacher will have to prescribe books already on the market and give only definite portions of them to the pupils to read supplementing these books with notes of his own.

14. **Mathematics.**—I looked at some of the surveying work which was being done. What I saw was neat and accurate. The course is none too difficult and the Kumars are easily able to cover it in the time.

The classes in Advanced Mathematics are very small—there are only two Kumars in the Diploma class and three in the second class—so that individual tuition can be and is given. Such individual tuition allows the Kumars to be taught upto a standard rather beyond that which is required for the Diploma examination. All the questions which I asked—these related to factors, square roots and quadratics—were well known and the Diploma class was well ahead of the prescribed syllabus. In addition simple trigonometry although not prescribed is taught to the Diploma class. Additional exercises in mental arithmetic are about to be introduced throughout the College; the books proposed for use are good, but more suitable for England than for India since English instead of Indian money, weights and measures are used. The necessary transformations can, for teaching purposes, be easily made by a qualified staff.

15. **Science.**—The college possesses for science a good lecture room and laboratory with preparation room and work room fully large enough for the number of pupils who are taught science. There is also a supply of electricity, gas and water and a very satisfactory supply of apparatus. I would make only one small criticism. I found it very difficult to set and to read the barometer since the lighting of the lower surface of the mercury was very poor and because that surface was dirty. It needs cleaning—a difficult operation in a Fortin's Barometer unless carried out by a trained operator. The questions asked in class IV were smartly and intelligently answered. The teacher in charge of science has tried in the lowest class with which he deals an assignment system, which is a modification of the Dalton system but he has found it unsuitable. Next year he is going to try an assignment system in science in the higher classes of the College where it should prove successful. Such systems have been found by experience in India to be wholly suitable at present only in the higher classes of schools.

16. **Geography.**—The College possesses a very good selection of maps, diagrams, appliances, and specimens, the latter being well arranged. Since the teacher is inexperienced and untrained he is rather handicapped in his methods of teaching and by his lack of knowledge of the principles of education. It is recommended that he be deputed for training since he is very keenly interested in his subject and has already received some of his education in Great Britain and has thus a wider outlook than is possessed by the ordinary Indian graduate. The instruction given was of too general a character being not sufficiently specific and related to common every-day events such for example as are found recorded in the newspapers or to the experiences of the Kumars. I was rather disappointed, for example, at the imperfect knowledge that the Kumars had gained on the subject of travelling by aeroplane.

17. **Drawing.**—Drawing is taught only up to the third class. What I saw is an improvement over what was done in the College two years ago. Parallel lines are now drawn by the Kumars as they actually appear, meeting at a distant point on the horizon. In free hand and model drawing feathery lines are however still drawn with several strokes instead of firm lines with a single stroke of the pencil. Practice in drawing by the latter method is desirable. The drawing course is generally satisfactory though a little old-fashioned, it having been prescribed more than a dozen years ago. Some water colour sketches I saw show distinct promise.

18. Examination.—One of the Kumars in the Diploma class is, I understand, desirous of entering Sandhurst. From what I saw of his work he is hardly sufficiently prepared for the Entrance examination which is of a distinctly higher standard than is the Diploma examination. I advise that since he is at present only 18 years of age he should wait for at least a year before he enters for the Sandhurst examination.

19. General.—There is nothing of importance to remark in the health which has been generally good, athletics to which much attention is paid, discipline and tone which are satisfactory and religious instruction and observance which are compulsory for the Kumars. The preparations for the Viceroy's recent visit naturally dislocated for a time the normal routine of College life but it made a deep impression upon the Kumars who are reading in the College.

ANNEXURE P.

Resolutions passed at the Meeting of the Managing Committee of the Mayo College held at the Mayo College, on the 7th December 1929, at 11 a.m.

PRESENT.

E. C. Gibson, Esqr., I.C.S., Commissioner, Ajmer-Merwara, *Convener.*

Lt-Colonel R. J. Macnabb, I.A., Resident, Western Rajputana States, Jodhpur.

Kanwar Chandra Sen of Kunadi, Kotah, Representative of Kotah.

Lala Krishna Jas Rai, Inspector-General of Education, Alwar State, Representative of Alwar.

Maharaj Lal Singh of Banswara, Representative of Banswara.

Rao Bahadur Thakur Rup Singh Powar, B.A., Representative of Kishengarh.

Mr. S. F. Madden, B.A., O.B.E., Principal, Mayo College, was invited to assist in the deliberations of the Committee.

Resolution No. I.—The Committee considered the Audit and Inspection Note on the account of the Mayo College Fund, for the period from April 1927 to March 1928, by the Accountant-General, Central Revenues, New Delhi, and resolved that as the Principal has taken steps to introduce the necessary improvements, no further action is necessary.

Resolution No. II.—The Committee considered and approved the report on time-barred irrecoverable arrears written off under heading sale of fruits, grass, etc., (conservancy and garden produce) *vide* Resolution No. VI of the Committee Meeting held on 27th March 1929.

Resolution No. III.—The Committee considered and resolved that a sum of Rs. 200/- being the sale proceeds of grass on the College Polo Ground be granted to the College Polo Club.

Resolution No. IV.—The Committee considered and approved the items of extraordinary expenditure as embodied in the Revised Budget Estimate for the year 1929-30.

Resolution No. V.—The Committee considered and passed the Revised Budget Estimate of the Mayo College Fund, for the year 1929-36.

Resolution No. VI.—The Committee considered and passed the Revised Budget Estimate of the Post-Diploma Course Fund, for the year 1929-30.

Resolution No. VII.—The Committee considered and passed the Revised Budget Estimate of the Play and Medical Fund and Games and Stationery Fund, for the year 1929-30.

Resolution No. VIII.—The Committee considered and passed the items of extraordinary expenditure as embodied in the Budget Estimate of the Mayo College Fund, for the year 1930-31.

Resolution No. IX.—The Committee considered the Budget Estimate of the Mayo College Fund, for the year 1930-31.

The proposal that an additional part of the floating balance up to Rs. 35,000/- should be invested was approved.

An allotment of Rs. 2,000/- was added under the heading "Visiting teams."

The Budget Estimate in its amended form was approved.

Resolution No. X.—The Committee considered and approved the Budget Estimate of the Post-Diploma Course Fund, for the year 1930-31.

Resolution No. XI.—The Committee considered and approved the Budget Estimate of the Play and Medical and Games and Stationery Fund, for the year 1930-31.

Resolution No. XII.—The Committee considered with reference to Resolution No. IV of the Meeting of the Managing Committee, held on 1st December, 1928, resolved that Rs. 1,500/- be sanctioned for the renewal of fans in the College Buildings.
